Training & Courses

Ghadeer Future Accelerators / Node js

March 2022 _ July 2022 Nablus

I learned 250 hours in the node js course, where I summited many projects and linked them to the Mongoddb database, and applied several topics within the projects, including:

- 1- Authentication and Authorization
 - 2- Aggregate
 - 3- Caching(Redis)
 - 4- Full text search(Redisearch, Elastic search)
 - 5- unit test jasmine
-

Projects

2023 Food Delivery

This project is a mobile application written in flutter and I used the Getx library to complete the program

2022 BOOKS

This program is a backend application to manage a list of Books. Each book has a name, ISBN, and an author

2022 SOCIAL-MEDI

This program is a backend application to manage a user ,post, and likes
