## EDUCATION

### BACHELOR OF COMPUTER SCIENCE

BIRZEIT UNIVERSITY 2018 - XXXX

Grade: 80.1

### PENS SUMMER SCHOOL IN SPAIN 2022

Learn how to process data and make web services using quarkus.

## PROJECTS

#### Event Planner

project proposes an event planner marketplace with recommendation system. The main goal of this project is to develop a website that helps the user plan everything they could need for events.

Using python and javascript, django, I connect between the back end and front end and collect data and make recommendation system for the project.

#### CAR SELL AND RENTAL

In this application, there are 2 types of users (Admins - Clients) where admins can add cars, staff and generate the monthly reports and clients can buy cars or rent them.

#### FONT CREATOR AND TEXT EDITOR

In this application, you can draw your font characters then you can use them to write in the application.
